About Me

Motivated undergraduate at the Sri Lanka Institute of Information Technology (SLIIT), specializing in Information Technology with a strong interest in building reliable, user friendly and high quality software. Skilled in web technologies, basic programming, database concepts, Git/GitHub, and software testing fundamentals. Experienced in academic and personal projects involving frontend development, UI design and quality validation. Seeking an internship opportunity where I can apply my technical knowledge, strengthen my industry experience, and contribute to the development of effective software solutions.

Skills

Programming Languages: JavaScript, Java, Python, C, C++, Kotlin

Web Technologies: HTML5, CSS3, JavaScript

Frameworks & Libraries: React.js, Tailwind CSS, Node.js, Express.js, Spring Boot, Mongoose

Databases: MySQL, MongoDB

Design & Prototyping Tools: Figma, Mockflow

Development tools & IDEs: Vite, Git, GitHub, Visual Studio Code, IntelliJ IDEA, Eclipse, Android Studio, MySQL Workbench

Testing Tools: Postman, Playwright, pytest

Soft Skills: Critical Thinking, Problem-Solving, Attention to Detail, Team Collaboration, Effective Communication

Projects

StudySync – Academic Group & Learning Management System

March 2026

React | Vite | Tailwind CSS | Spring Boot | MySQL | Postman | GitHub

- GitHub: <https://github.com/D0017/studysync>
- Contributed to the Access Control & Group Administration module, including student/lecturer registration, secure login authentication, role based access control, admin dashboard, user management, module management, and grouping management.
- Used Postman for API testing and GitHub for version control and team collaboration.
- Worked with a React + Vite + Tailwind CSS frontend and Spring Boot REST API backend connected to MySQL.

Pink Aura Salon Management System

Sep 2025

React | Vite | Tailwind CSS | Node.js | Express.js | MongoDB | Mongoose | JWT | Stripe | Nodemailer

- GitHub: <https://github.com/kezu1003/Pink-Aura-Salon-Management-System>
- Contributed to a fullstack salon management system as part of a group project, focusing on User Management, Product Management
- Used JWT-based authentication concepts with secure password handling using bcrypt for protected user access.

- Integrated Nodemailer for email validation and OTP delivery to improve account verification and secure user access.

Sinhala Transliteration Testing Automation

May 2026

Python | Playwright | Excel | QA Automation

- GitHub: <https://github.com/D0017/sinhala-transliteration-testing-playwright>
- Created a QA automation project to test Singlish-to-Sinhala chat transliteration accuracy using Python, Playwright and Excel based test data.

QA Test Case Manager

Python | pytest | CLI

June 2026

- GitHub: <https://github.com/D0017/QA-test-case-manager>
- Developed a Python command line tool to help testers create, update, search, filter, delete, import and manage test cases.
- Added CSV based persistent storage and validation for duplicate IDs, empty fields, priority values and test status values.
- Wrote automated unit tests using pytest to validate core test management functions.

DailyBloom – Wellness Tracker Android App

Sep 2025

Kotlin | Android Studio | Gradle

- GitHub: <https://github.com/D0017/DailyBloom>
- Developed an Android wellness application that helps users manage daily health routines.
- Focused on creating a practical mobile app experience for daily habit and wellness related tracking.

Education

Sri Lanka Institute of Information Technology

Nov 2023 – Present

B.Sc (Hons) in IT Specializing in Information Technology (undergraduate)

Mahinda College Galle

G.C.E A/L 2020

Certifications

-
- CS50's Introduction to Programming with Python
 - MongoDB Data Modeling Path
